

# SANITARY CONNECTED THERMOCOUPLES

Clean in place (CIP) style sanitary connected Thermocouples are used in the beverage, chemical, dairy, food and pharmaceutical processing industries. Acrolab offers the most common sanitary caps in the industry and all meet 3-A Sanitary Standard 74-. The sheaths are 316SS and come with a FDA compliant white thermoplastic head. The assemblies provide excellent washdown protection. Reduced tips are offered for faster response time.
