

Thermal Manufacturing Solutions

Section O

Distributed Products

As a distributor of industrial electric component heaters, sensors, and controls, Acrolab has been dedicated to providing Excellence in Distribution since 1948. In all this time we have maintained the philosophy that your success is our success. We are fully committed to being your preferred source of heaters, sensors and controls by providing the highest level of service and customer satisfaction available in today's market! Try us today, you'll be glad you did!

GEFRAN

Sensors and Instrumentation for Process Control

Melt Pressure (Formerly ISI) – For Extrusion and Injection

- Melt Transducers / Transmitters
- Analog and Digital Melt Gauges
- Rupture Disks, Cables and More

Equivalent / Replacement for Dynisco, Gentran, GP-50 and Others

Position Sensors

- Potentiometers
- Magnetostrictive with analog, digital, and serial bus outputs

Equivalent / Replacement for Novotechnik, MTS, Balluff and Others

Pressure Sensors

- 4-20 mA, mV/V, Vdc Outputs
- 0-30 psi to 0-70,000 psi
- All standard electrical and process connections

Equivalent / Replacement for Dynisco, Sensotec, Hydac and Others

Process Controllers & Indicators

- Standard DIN Sizes (1/16, 1/8, 1/4)
- Pressure and Temperature Control
- Universal Input Process Indicators
- Various output and retransmission options

Equivalent / Replacement for Eurotherm, Barber-Colman, Watlow, and Others

Solid State Relays

- Single and Three Phase SSRs
- SSRs with Logic or Analog Control
- All standard configurations and ratings

Equivalent / Replacement for Crydom, Continental, Watlow and Others
